8:30 am – 10:30 am

THE WINDS OF CHANGE-REGULATORY CHANGES IN THE SNF SETTING

Presented by: **THERESA MEYERS, ENCORE REHABILITATION**

This course will discuss the proposed regulatory changes to billing for skilled Medicare patients in the SNF setting. Review what the RCS-1 proposal is and what it means to therapy. The ACO, value-based payment, and bundled payments will be discussed. Ideas and strategies to continue to achieve good outcomes and meet the needs of the patients will be discussed.

10:45 am – 12:15 pm

INVESTIGATIONS, QAPI, AND ROOT CAUSE ANALYSIS

Presented by: **STAFF FROM TELLIGEN, THE ILLINOIS QIO**

Regulations are in effect requiring providers to have a Quality Assurance Performance Improvement program in place. Your facility is required to use the QAPI process including Root Cause Analysis during investigations. Providers must not only find the cause of the incident, but also determine how to avoid future incidents.

Many providers still do not understand this important process. This course will review the requirements of QAPI and its importance since surveyors are asking for your QAPI Program and the Root Cause Analysis reports.

12:15 pm -1:15 pm LUNCH Sponsored by: PODIATRY PLUS

1:15 pm – 2:45 pm

MAKING SURE YOU KNOW WHAT THE SURVEYORS KNOW

Presented by: **KIM KOHLS, REGIONAL DIRECTOR OF OPERATIONS, ALDEN MANAGEMENT SERVICES**

Surveyors do a lot of preparation before they enter your facility for the annual survey or a complaint. Do you know what they are looking at before the entrance? Where is information on your facility found prior to the survey?

This course will show you how to zero in on the problems of a particular facility by looking at the same information the surveyors are combing through. It will teach you how to concentrate on the reports and information that are leading surveyors in a specific direction.

3:00 pm – 4:30 pm

DOCUMENTATION IS NOT JUST CHECKING BOXES

Presented by: **DEBBIE BROWN, KALIN HEALTHCARE SOLUTIONS**

Documentation is not just checking boxes. With the introduction of electronic charting, staff often feel their job is done once they click a box. Often the coordination between electronic charting and good old objective charting is missing. All too often, you do not see appropriate assessments. Staff struggle with resident assessment and change in condition, hitting checkmarks, but missing the whole picture.

This course will cover the coordination of electronic and narrative documentation that is necessary for the care of the resident and reimbursement.

INFECTION CONTROL AND THE FINAL RULES OF PARTICIPATION

Presented by: **TAMMY WOOSLEY, HERITAGE
ENTERPRISES**

CMS is requiring more and more requirements on infection control programs under the Final Rules of Participation. Facilities are required to track infection in a more usable format and have a head of the Infection Control Program that is a trained Infection Preventionist.

This course will review the requirements that must now be met. What regulations have changed and which have remained the same?

10:30 am – 12 pm

PHARMACY ISSUES AND THE SURVEY PROCESS

Presented by: **JERRY C. BUCHOLC, PHARMD,
BCGP, OMNICARE**

Surveyors are concentrating more on pharmacy issues than they have in the past. Timing of medications and medication administration are recurrent violations. Are your staff proficient and following medication guidelines for administration and timing?

This course will review important regulations and requirements that must be met for medications, as well as what is being cited by the Department.
